Introduction

PIONEERS IN EDGE BANDING SINCE 1968...

CEHISA is an international Spanish woodworking machinery manufacturer that has been specialized in edge banding solutions since 1968. From its earliest days, CEHISA has been dedicated to the design and manufacture of practical, durable and good finish machinery to cater to carpenters' needs. As a carpenter, Manuel Cuenca, the founder, started designing woodworking machines for his own use, which he later commercialized. His designs soon revolutionized the sector with smaller size, easily usable and long-lasting machines. All other companies followed.

OUR GROWING COMPANY

CEHISA, founded in 1956, started its internationalization from its earliest times and has been present in the 5 continents since 1975. This allowed us to become the international leading company we are now, gaining a know-how in edge banding that few others have.

Having sold more than 40.000 machines over this time we are present in more than 65 countries thanks to our worldwide dealer network.

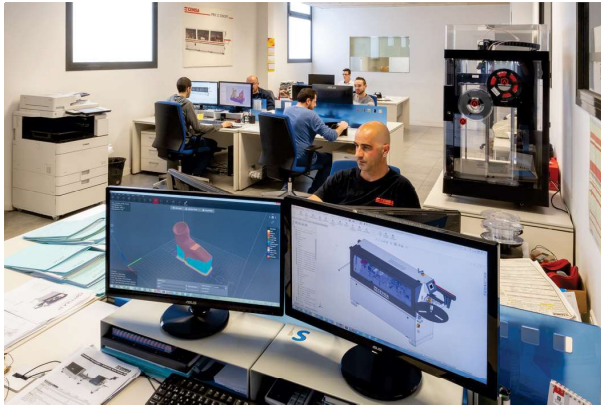

OUR FACILITIES

CEHISA edgebanders are designed and manufactured at our 10.000 sqm facilities near Barcelona. Therefore, we have a great operational capacity which allows us to meet the most demanding delivery terms.

Come and visit our 1.000 sqm showroom and check out the great performance and excellent finish quality provided by our machines in live demonstrations. *Schedule your visit!*

EDGE BANDERS RANGE

Our wide portfolio of edgebanders is designed to cater to all carpentry needs and it is suitable for all size of carpenter workshops.

On the one hand, we have the SME Line which is made up of a series of small, compact and versatile edgebanders that provide performances and a finish quality more proper of an industrial machine, with an incredible price-performance ratio, but at an affordable price, even for small carpentry shops.

SEMI AUTOMATIC

For curved and straight panels

SME LINE SERIES

ONE Series
Big ideas fit everywhere

Optim Series
Maximum performance
minimum space

Flexy Series
Compactness combined
with high performance

Compact Series
Versatility, compactness
and high performance

EDGEBANDERS RANGE

On the other hand, we manufacture the Industry Line, designed to manage large workloads and to meet the most complex needs of the woodworking industry. Therefore, our Industry Line is ideal for medium and industrial carpentry workshops since it is integrated by the most powerful, versatile and productive machines of the range and equipped with the latest innovations in automation.

INDUSTRY LINE SERIES

Avant 6.0
Working speed Up to 20m/min

Avant 4.0
For solid wood strips up to 15mm

XPERT

AUTOMATIC, VERSATILE & COMPACT

UP TO 11 **MOTORIZED AXES**
MULTI-PROFILE TOOL

CUSTOM-MADE

KEY VALUES

CEHISA is worldwide settled and present at the most important woodworking shows around the world. Our machinery quality, customization, availability of spare parts and immediate assistance make of CEHISA the best edge banding solution.

EXPERTISE AND KNOW-HOW

Reliable, sturdy and durable edgebanders at an affordable price, with an integration of technology that has never been seen before. Manufactured in our facilities.

TAYLOR MADE SOLUTIONS

We have a great capacity to adapt to the needs of the market, being able to produce customized machines.

OPERATIONAL CAPACITY

We manufacture every component inside our facilities, thus allowing us to meet the most demanding delivery terms.

AFTER-SALES SERVICE

We provide immediate solutions to our customers worldwide thanks to our service network. Our TAS technicians are always available to attend to our clients inquiries.

ENDLESS IMPROVEMENTS

CEHISA's R&D&I Department is always improving our machines and aiming to optimize the woodworking production process with the most innovative solutions.

TECHNICAL TRAINING

We provide technical and commercial training to all of our distributors in order to offer our customers the best service and user experience.

TECH
UPGRADES

DUOMELT®

DUOMELT® upgrade pack, allows the use of the glue tank with EVA / PUR and PO adhesives. The optional pack includes a simple and efficient draining system for the residual glue in the glue pot and the necessary software to support this feature

DUOMELT®

Inside

Eva / Pur

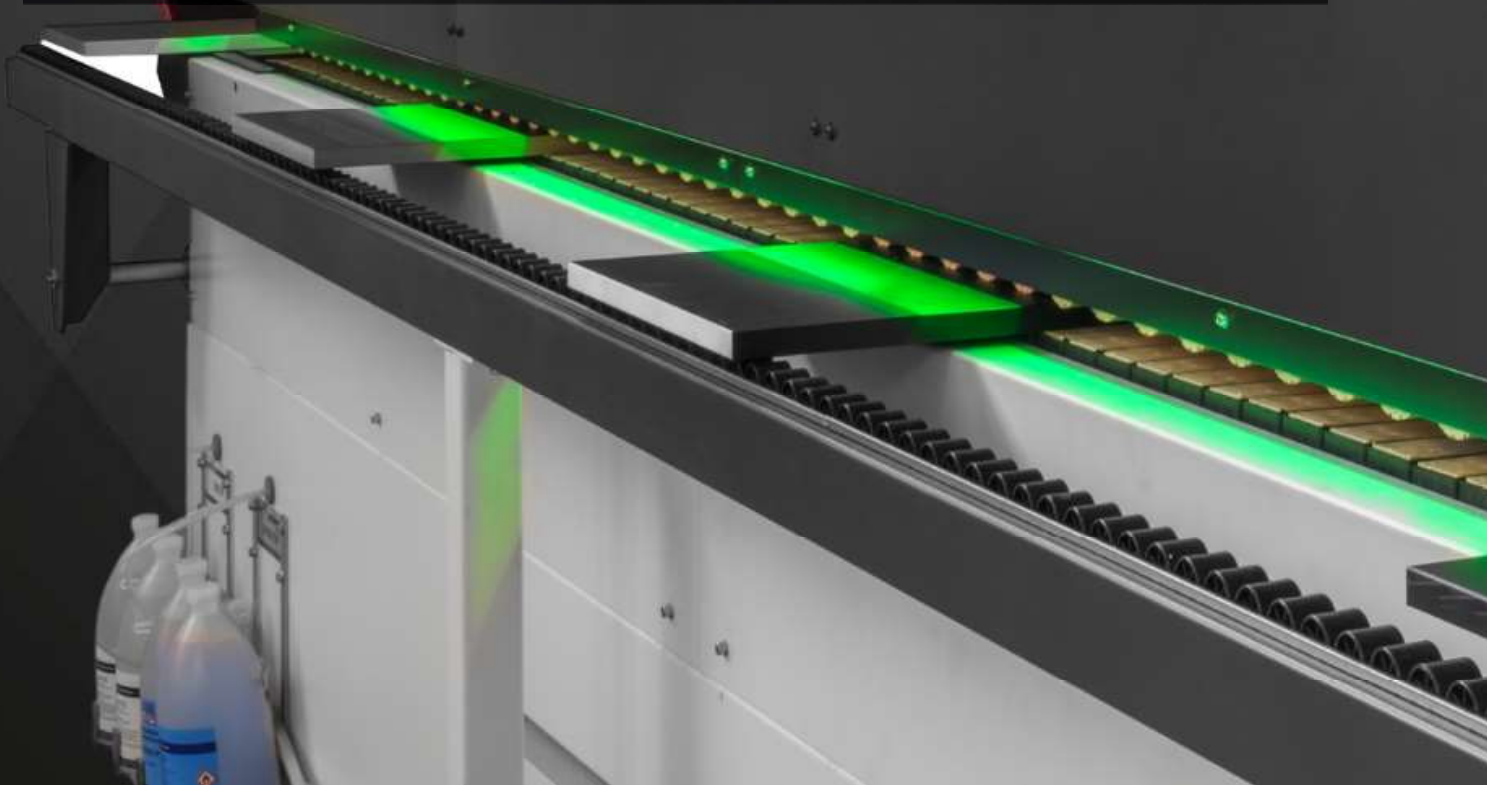

System equipped

LED Motion System

For a safer, more intuitive and optimized panel interval.

Alarm visual indicator

Remote Connection

Remote access to touch screen and PLC (errors, counters or program loading), reception of messages via email for notification of alarms or maintenance schedule (depending on machine configuration)

The image shows a close-up of a machine's control panel. At the top, there are four yellow indicator lights. Below them, the text 'CR 4M' is displayed in red and white. To the right, 'C-Motion Tech.' is written in red and white, with 'equipped' in white below it. The machine's interior features a blue conveyor belt and two motorized adjustment mechanisms on either side. A black text box is overlaid on the lower half of the image, containing the company name and two paragraphs of text.

CR 4M

C-Motion Tech.
equipped

C-MOTION TECH

C-Motion technology offers maximum precision and agility when adjusting the operational groups.

C-Motion technology includes a software with intuitive interface and **motorized adjustment** for a total control of the edgebander, thus guaranteeing the highest quality finish.

BECOME OUR OFFICIAL DISTRIBUTOR

WE LOOK FORWARD TO BEING
YOUR PARTNER

Become an official distributor of CEHISA, the Spanish leading company in edgebanders manufacture, and start offering your clients high quality machines at an affordable price, customized woodworking solutions and an immediate excellent aftersales service. Do not hesitate and **get in touch with us!**
